

Certificate

This certifies that

Amanda Blake

has assisted to provide 8 hours of education for the event:

Care of the Septic Patient

held on 5/29/2025 at Classroom D.

Amanda's Contribution: Event Coordinator

Thank you for your assistance in educating the following colleagues:

Elizabeth Johnson, Florence Nightengale, Paul Flowers, Sarah Whitman

Amanda Blake, 5/29/2025
Amanda Blake, Course Leader

Care of the Septic Patient

COURSE DETAILS:

 **Date/Time:** Thursday, May 29th, 2025 11:00am - 7:00pm (May 29th)

 **Total Hours:** 8

 **Location:** Classroom D

COORDINATOR:

Amanda Blake

INSTRUCTORS & CONTRIBUTIONS:

Amanda Blake (Event Coordinator), Dr. Madeup Person (Simulation Provider), James Holloway (Skill Station Leader), Jane Montgomery NP (Skill Station Provider), Zach Norman (Simulation Facilitator)

ATTENDANCE:

Elizabeth Johnson, Florence Nightengale, Paul Flowers, Sarah Whitman

OUTCOME:

The learner understands signs/symptoms of sepsis, performs primary survey and safety net, communicates abnormal findings.

OBJECTIVES:

- Establish safety-net for critically ill pediatric patient, including monitor, vital signs, glucose, IV/IO access, oxygen, and undress patient.
- Perform primary survey assessment on critically ill pediatric patient.
- Notify ED MD of abnormal findings on primary survey assessment.
- Implement appropriate interventions based on abnormal primary survey findings.
- Evaluate effectiveness of interventions based on continuous reassessment of patient status and vital signs.
- Utilize pediatric length-based resuscitation tape to determine drug and fluid dosing of critically ill pediatric patient.
- Communicate with care team members using closed-loop communication.
- Establish trust when communicating with parent of critically ill pediatric patient.

DESCRIPTION:

Didactic: 2hr course on regarding assessing acuity, establishing safety net, and initial patient care.

Simulation: 3 simulations utilizing both high fidelity simulators adult/child/infants and standardized patient/visitors.

TOPICS:

Acuity, Communication, Critical Care, Pediatrics, SIRS, Safety Net, Sepsis, Star 3

Certificate

This certifies that

James Holloway

has assisted to provide 4 hours of education for the event:

Care of the Septic Patient

held on 5/29/2025 at Classroom D.

James's Contribution: Skill Station Leader

Thank you for your assistance in educating the following colleagues:

Elizabeth Johnson, Florence Nightengale, Paul Flowers, Sarah Whitman

Amanda Blake, 5/29/2025
Amanda Blake, Course Leader

Care of the Septic Patient

COURSE DETAILS:

 **Date/Time:** Thursday, May 29th, 2025 11:00am - 7:00pm (May 29th)

 **Total Hours:** 4

 **Location:** Classroom D

COORDINATOR:

Amanda Blake

INSTRUCTORS:

Amanda Blake, Dr. Madeup Person, James Holloway, Jane Montgomery NP, Zach Norman

ATTENDANCE:

Elizabeth Johnson, Florence Nightengale, Paul Flowers, Sarah Whitman

JAMES'S CONTRIBUTION:

Skill Station Leader

OUTCOME:

The learner understands signs/symptoms of sepsis, performs primary survey and safety net, communicates abnormal findings.

OBJECTIVES:

- Establish safety-net for critically ill pediatric patient, including monitor, vital signs, glucose, IV/IO access, oxygen, and undress patient.
- Perform primary survey assessment on critically ill pediatric patient.
- Notify ED MD of abnormal findings on primary survey assessment.
